

HOUSEHOLDERS' OPTIONS TO PROTECT THE ENVIRONMENT (HOPE)

Think Globally - Act Locally

Householders' Options to Protect the Environment Inc. (HOPE) aims to raise awareness of, and encourage active participation in waste minimisation and the conservation of energy and resources. HOPE seeks to promote its charter through individuals, families, community groups and businesses who embrace the philosophy of HOPE and spread this philosophy of sustainable living to others.

Whether you live in urban, rural or regional Australia, you too can lessen your impact on the global environment by adopting sustainable living practices at home, at work and at school. HOPE's head office is located in Toowoomba, Queensland and has members and supporters throughout Australia.

Thanks to HOPE for this brochure supporting our local heritage places. As well as being fascinating to visit they provide a unique opportunity to experience the ingenuity and sustainability of past eras.

“

Throughout the area administered by the Toowoomba Regional Council there are many centres which highlight our history. Some such as Cobb & Co. Museum, while equally significant, are not so well-known. This brochure, prepared by members of HOPE gives examples of a number of these places that tell the story of the area from its indigenous occupation to the present. I congratulate them for the initiative they have shown and recommend the brochure for tourists and locals alike.
